

TEMPORARY ENGINEERING LOG

F/MNT/07 (00/01.12.2021)

1. Temporary engineering should only be used where there is no immediate, permanent solution
2. Temporary engineering must be suitably risk assessed and approved by a department head in conjunction with engineering.
3. Initial details must be recorded below
4. The engineering department must ensure a permanent solution is implemented as soon as practicable
5. Once the permanent solution is implemented the record must be completed
