MONTHLY PRP CHECK LIST (GMP INSPECTION RECORD)

Format No.: F/HR/19	Rev No: 00	Date: 01.12.2021	Page No.: 1 Of 5

Responsibility HARA TEAM **Date** _____

Location Guide

☐ Outside Premises ☐ Raw Material Store ☐ Ink & Varnish Store
☐ Packing Area ☐ Receiving / Dispatch Area
☐ Plant – Ground floor ☐ QC Laboratory
☐ Utility ☐ FG Storage Area ☐ Plant – First Floor
☐ Change Rooms ☐ Lunch Rooms

Sr. No.	Checklist	Compliance	Action taken if NC
1.	Whether outside land is free of debris and refuse?	Yes / No	
2.	Whether any source of pollution exists in nearby vicinity affecting the premises and the manufacturing area? (e.g. no objectionable odors, smoke, dust or other contaminants)	Yes / No	
3.	Whether premises roadways are properly graded, compacted and dust proof and drained?	Yes / No	
4.	Whether premises dispatch and receiving areas provide or permit good drainage? (e.g. no seepage, foot-borne filth and no breeding place for pests)	Yes / No	
5.	Whether premise has proper litter storage facilities?	Yes / No	
6.	Whether waste and liter has been removed to ensure prevention of harborage of pests and rodents?	Yes / No	
7.	Whether weeds and grass have been cut within the vicinity of the plant building or structures to ensure prevention of harborage of pests and rodents?	Yes / No	
8.	Whether there is any water logging in the plant as a breeding place for pests and rodents?	Yes / No	
9.	Whether there are some unattended cracks and crevices in any part of the plant building or structures which may harbor pests and rodents?	Yes / No	
10.	Whether the plant building & structures are clean from outside as well as inside? (e.g. absence of dust, debris, refuse or cobwebs, etc.)	Yes / No	
11.	Whether all windows and doors are close fitting in the plant building not allowing any pests and rodents? (e.g. any damages in the doors & windows)	Yes / No	
12.	Whether there is any plaster chipping or paint surface peeling off inside the plant premises?	Yes / No	
13.	Whether any floor or wall tiles or flooring broken allowing harborage of pest, rodents or accumulation of dust or any contaminants?	Yes / No	

Sr. No.	Checklist	Compliance	Action taken if NC
14.	Whether joints between walls, floors and ceilings are proper in all areas?	Yes / No	
15.	Whether the plant production and packing areas are well lit and all the lighting fixtures are in working condition? (e.g. no broken lighting fixtures)	Yes / No	
16.	Whether all the lighting fixtures over exposed food or packing materials at all stages of production are covered with shatter proof material (e.g. acrylic glass covers)	Yes / No	
17.	Whether waste containers are clearly identified and are leak proof?	Yes / No	
18.	Whether wash rooms, lunch rooms and change rooms are correctly maintained and ventilated?	Yes / No	
19.	Whether all hand-washing facilities are equipped with potable running water at sufficient temperature (wherever required) and adequately maintained?	Yes / No	
20.	Whether all hand-washing facilities are equipped with liquid soap?	Yes / No	
21.	Whether all hand-washing facilities have sanitary hand drying devices / paper towels / hand-driers?	Yes / No	
22.	Whether hand-wash signage is provided at all hand washing facilities?	Yes / No	
23.	Whether temporary structures are designed, located and constructed to avoid pest harbourage and potential contamination of product?	Yes / No	
24.	Whether facility used to store ingredients, packaging and products is having proper protection from dust, condensation, drains, waste and other source of contamination?	Yes / No	
25.	Whether storage area is arranges to allow segregation of raw materials, work in progress and finish product?	Yes / No	
26.	Whether all materials and products are stored off the floor and with sufficient space between the materials and walls?	Yes / No	
27.	Whether a separate, secure (locked or otherwise access controlled) storage area is provided for cleaning materials, chemicals and other hazardous substances?	Yes / No	
28.	Whether the supply of potable water is sufficient to meet the needs of production process?	Yes / No	
29.	Whether water for cleaning or application where there is risk of indirect product contact (e.g. jacketed vessels, heat exchange, etc.) is meeting the specified quality	Yes / No	

Sr. No.	Checklist	Compliance	Action taken if NC
	and microbiological requirement relevant to the application?		
30.	Whether provision is made for the segregation, storage and removal of waste?	Yes / No	
31.	Whether labeled materials, products or printed packaging designated as waste is disfigured or destroyed to ensure that the trade mark is not reused?	Yes / No	
32.	Whether waste removal and destruction are carried out by approved disposal contractor?	Yes / No	
33.	Whether food contact equipment is designed and constructed to facilitate cleaning, disinfection and maintenance?	Yes / No	
34.	Whether food contact surface is suitable for the product and cleaning system?	Yes / No	
35.	Whether equipment can meet established principle of hygienic design, including; 1) Smooth, accessible, cleanable surface, self-draining in wet process area 2) Use of materials compatible with intended products and cleaning or flushing agent 3) Framework not penetrated by holes or nuts and bolts	Yes / No	
36.	Whether cleaning program specify what is to be cleaned, the responsibility, the method of cleaning, the use of dedicated tools, removal or disassembly requirements and methods for verify the effectiveness of cleaning?	Yes / No	
37.	Whether brittle materials, such as glass and hard plastic component in equipment, should be avoided where possible?	Yes / No	
38.	Whether cleaning and sanitizing agents and chemical is clearly identified, food grade, stored separately and used only in accordance with the manufacturer's instruction?	Yes / No	
39.	Whether equipment and tools are of hygienic design and maintained in condition which does not present a potential source of extraneous matter?	Yes / No	
40.	Where outside space is used for storage, stored item is protected from weather or pest damage (e.g. bird dropping)?	Yes / No	
41.	Whether establishment provide adequate number of toilets of appropriate design, each with hand washing, drying and, where required, sanitizing facilities?	Yes / No	
42.	Whether establishments have hygiene facilities that do not open directly on to production, packaging or storage area?	Yes / No
